PROSTATE TEMPLATES

SMALL

Small Prostate
Template 17 Channel
1/pk, Sterile

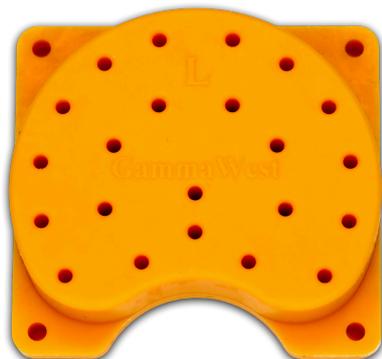

PRODUCT # 5650

MEDIUM

Medium Prostate
Template 18 Channel
1/pk, Sterile

PRODUCT # 5651

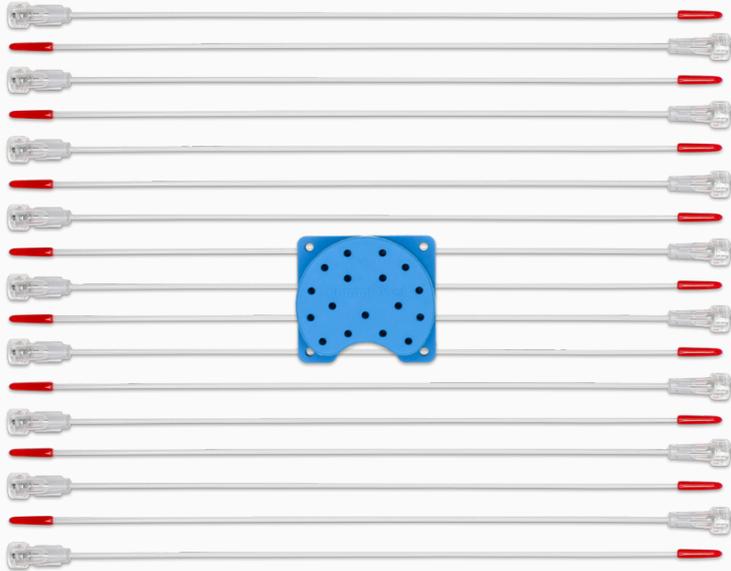

LARGE

Large Prostate
Template 22 Channel
1/pk, Sterile

PRODUCT # 5652

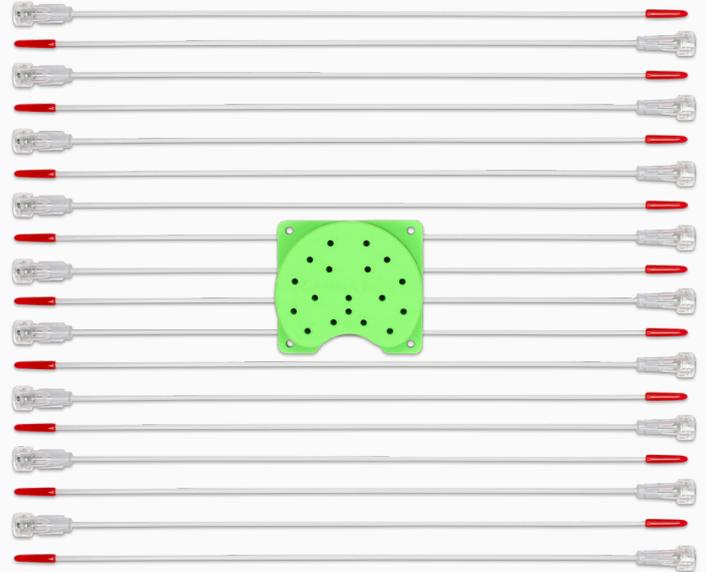

PROSTATE BRACHYTHERAPY KITS

SMALL PROSTATE BRACHYTHERAPY KIT

Contains: 17 - 25cm Needles, Small 17 Channel Prostate Template, Sterile

PRODUCT #5800

MEDIUM PROSTATE BRACHYTHERAPY KIT

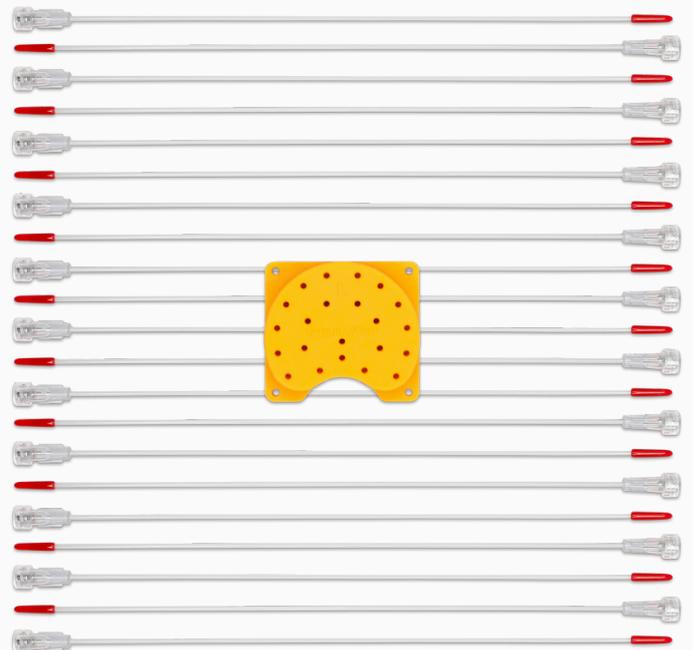

Contains: 18 - 25cm Needles, Medium 18 Channel Prostate Template, Sterile

PRODUCT #5801

LARGE PROSTATE BRACHYTHERAPY KIT

Contains: 21 - 25cm Needles, Large 21 Channel Prostate Template, Sterile

PRODUCT #5802

RADIOPAQUE BUTTONS

PRODUCT # 5910

Buttons, 15ga, Radiopaque, Sterile, 5/pk, Multicolor

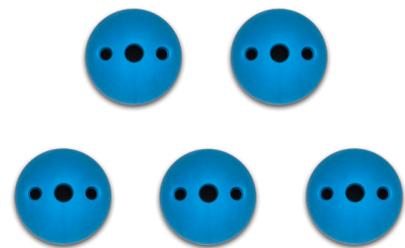

Halfmoon Buttons are designed to secure brachytherapy catheters while ensuring maximum patient comfort. Made from soft flexible material, containing two suture holes. Each button acts as a friction cuff and is radiopaque for clear visibility under imaging. Available in five distinct colors for easy catheter identification.

AVAILABLE IN FIVE COLORS. THESE BUTTONS ARE SINGLE USE AND DISPOSABLE.

PRODUCT # 5908

Radiopaque Buttons, 15ga, 5/pk, Purple, Sterile

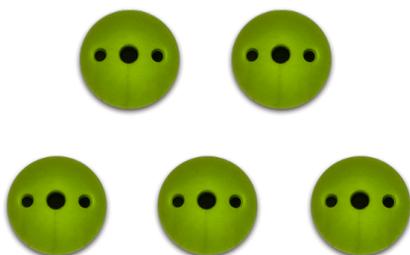

PRODUCT # 5906

Radiopaque Buttons, 15ga, 5/pk, Blue, Sterile

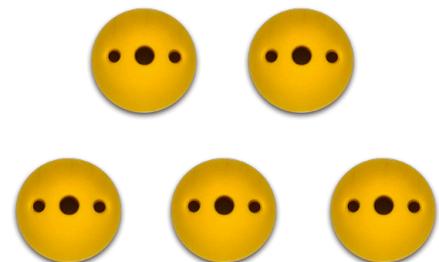

PRODUCT # 5909

Radiopaque Buttons, 15ga, 5/pk, White, Sterile

PRODUCT # 5905

Radiopaque Buttons, 15ga, 5/pk, Green, Sterile

PRODUCT # 5907

Radiopaque Buttons, 15ga 5/pk, Yellow, Sterile

FLEXINEEDLES

- PRODUCT # 5632 Flexineedle 15ga 23.5cm w/o female luer, SS Stylet, 1/pk Sterile
- PRODUCT # 5633 Flexineedle 15ga 23.5cm w/o female luer, SS Stylet, 5/pk Sterile
- PRODUCT # 5764 Flexineedle 15ga 25cm w/ luer, SS Stylet, 1/pk, Sterile
- PRODUCT # 5765 Flexineedle 15ga 25cm w/ luer, SS Stylet, 5/pk, Sterile
- PRODUCT # 5913 Flexineedle 15ga 30cm, w/ luer, SS Stylet, 1/pk Sterile
- PRODUCT # 5914 Flexineedle 15ga 30cm, w/ luer, SS Stylet, 5/pk, Sterile, Sterile
- PRODUCT # 5705 Flexineedle 15ga 30 cm, w/o female luer, SS Stylet ,1/pk, Sterile
- PRODUCT # 5706 Flexineedle 15ga 30 cm, w/o female luer, SS Stylet, 5/pk, Sterile
- PRODUCT # 7016 Flexineedle 15ga 25cm internal length, Metal Ti Hub, MRI Conditional Safe when SS Stylet Removed, 1/pk, Sterile
- PRODUCT # 7017 Flexineedle 15ga 25cm internal length, Metal Ti Hub, MRI Conditional Safe when SS Stylet Removed, 5/pk, Sterile
- PRODUCT # 6091 Flexineedle 16ga 25cm w/o Female luer, SS Stylet 1/pk, Sterile
- PRODUCT # 6092 Flexineedle 16ga 25cm w/o Female luer, SS Stylet 5/pk, Sterile
- PRODUCT # 5664 Flexineedle 15ga 40.5cm w/o female luer, SS Stylet 1/pk, Sterile
- PRODUCT # 3101 Flexineedle, 17ga, 30cm, Veterinary, Non-Sterile

FLEXINEEDLE ADAPTER

Constructed to be compatible with 15-gauge flexible needles, this adapter provides a secure interface. The 60mm length offers optimal reach and maneuverability within the procedural field, making it suitable for a wide range of anatomical configurations and patient needs.

PRODUCT # 7094 Adapter, Flexineedle, 15ga 60mm, non-sterile

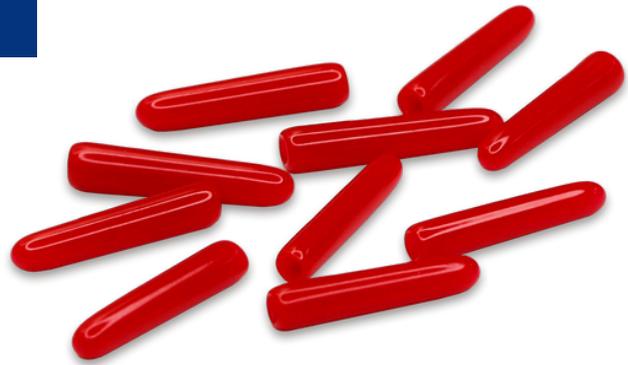

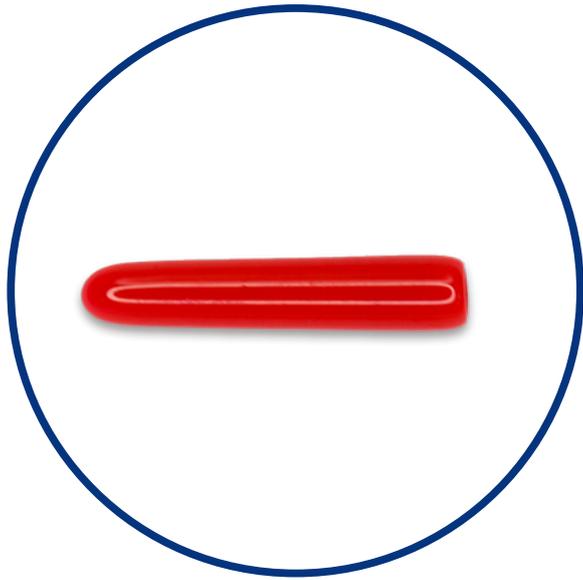

BLIND END CATHETER

Designed for precision placement and optimal procedural control in interstitial applications. Engineered to provide a closed distal end.

PRODUCT # 5667 Flexineedle, 15ga, 25cm, closed hemispherical tip, non sterile

CATHETER CAPS

Designed for compatibility with a wide range of catheter types and sizes, this cap manages backflow and contamination during or after the loading process.

PRODUCT # 5647 Catheter Caps 15ga (6 Fr) 10 per pack, Sterile

SMITT SLEEVE

Designed to facilitate accurate and repeatable placement of 3.5mm O.D. intrauterine applicators during gynecological radiation therapy, particularly in cervical cancer treatments.

PRODUCT # 7001 20mm Smitt Sleeve, Sterile
PRODUCT # 7002 40mm Smitt Sleeve, Sterile
PRODUCT # 7003 60mm Smitt Sleeve, Sterile
PRODUCT # 7004 80mm Smitt Sleeve, Sterile

OB/GYN BRACHYTHERAPY KIT

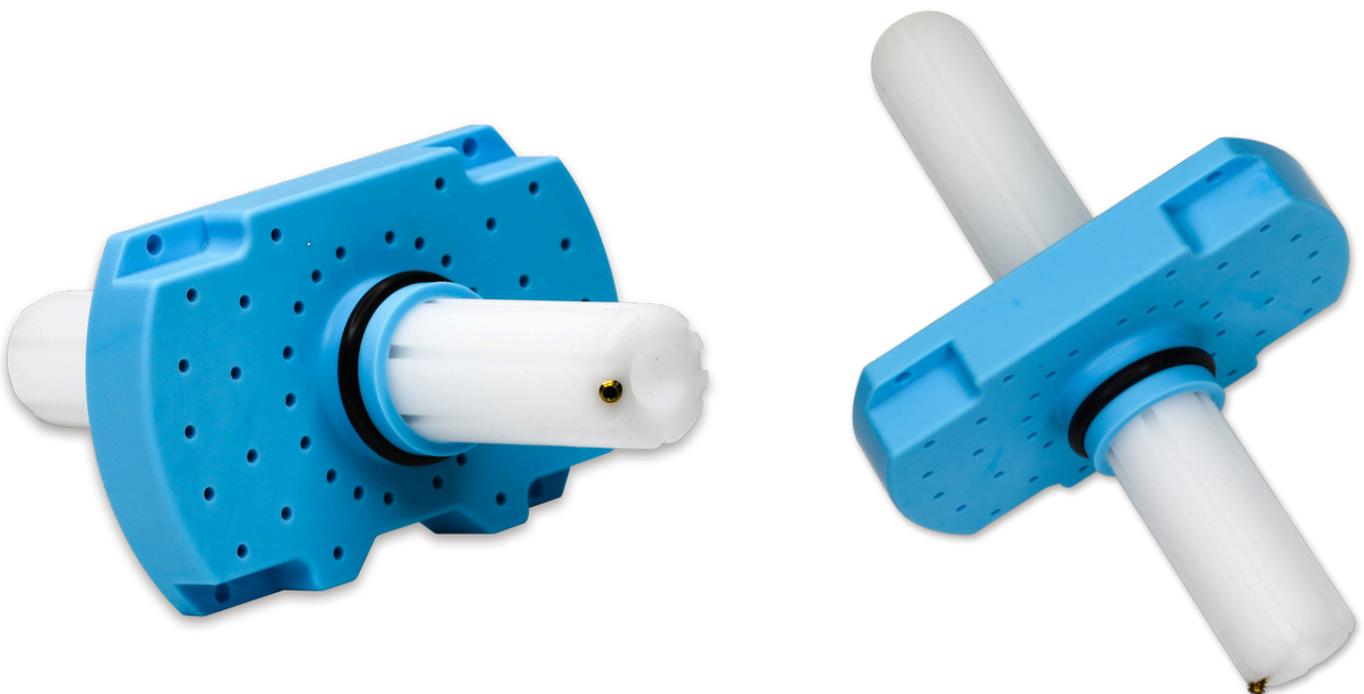

This disposable gynecological brachytherapy kit contains one Ob/Gyn template with 40 treatment channels which are 15 gauge (6 Fr) size, offering maximum flexibility for gynecological brachytherapy cancer treatment. Each kit also contains one central rod assembly sleeve and tool.

PRODUCT # 7058 OB/GYN Brachytherapy Kit Contains Template & Central Rod Assembly, Sterile

PRODUCT # 7055 OB/GYN Template 15ga. Sterile

PRODUCT # 7113 Central Rod Assembly, o-ring and tool. Sterile

INTRAUTERINE TANDEM

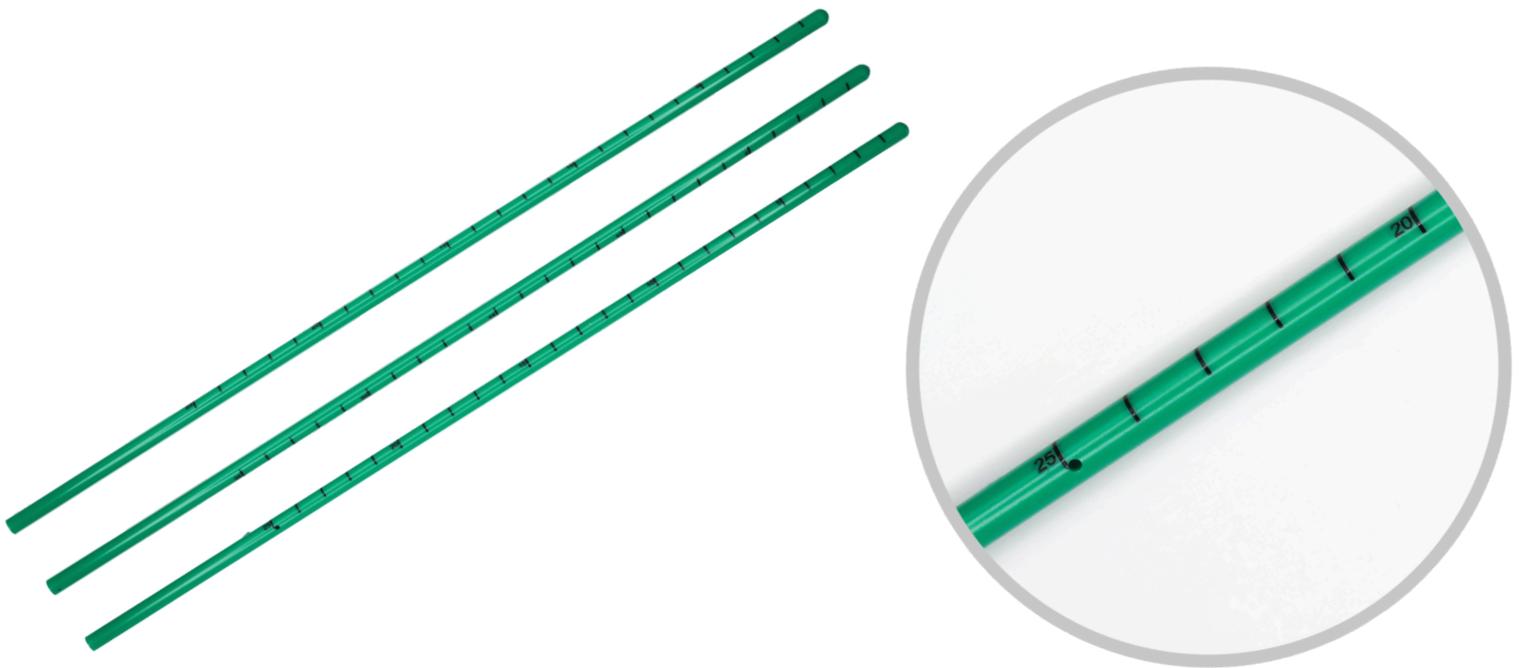

Disposable Intrauterine Tandem Applicator with cm graduations. Available with or without suture hole. Made from a heat-bendable material, this device can be carefully shaped to achieve the desired angle needed for optimal catheter or source positioning during treatment.

PRODUCT # 5662 Intrauterine Tandem, 6mm OD, 32cm, Graduated, 1/pk, Sterile

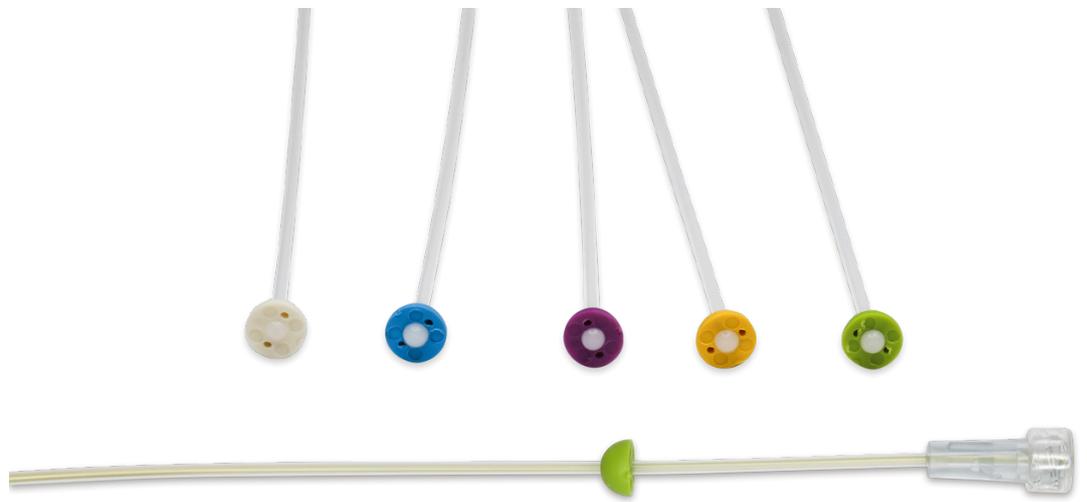

PRODUCT # 5925 Intrauterine Tandem, 6mm OD, 32cm, Graduated, Suture Hole at 25 cm mark, 1/pk, Sterile

PRODUCT # 5663 Intrauterine Tandem, 6mm OD, 32cm, Graduated, with Tip hole, 1/pk, Sterile

** Flexineedle and Radiopaque Button Sold Separately **

SINGLE LEADER CATHETER

PRODUCT # 5648 BRACHYTHERAPY KIT

Contains:

- (1) Single Leader 15ga (6Fr) 30cm Catheter & Radiopaque Button
- (1) 17ga , 20cm Implant Needle
- (1) 5/pk Radiopaque Buttons, Multi color. Sterile

PRODUCT # 5642 BRACHYTHERAPY KIT

Contains:

- (1) 5/pk Single Leader 15ga (6Fr) 30cm Catheter & Radiopaque Button
- (1) 5/pk 17ga , 20cm Implant Needle
- (1) 5/pk Radiopaque Buttons, Multi color. Sterile

PRODUCT # 5655 BRACHYTHERAPY KIT

- (1) 5/pk Single Leader 15ga (6Fr) 30cm Nylon Catheter w/ Filiment & Radiopaque Button
- (1) 5/pk 17ga, 20cm Implant Needles w/ stylet,
- (1) 5/pk Radiopaque Buttons, Multi color.
- (1) 10/pk Catheter Caps, 15ga. Sterile

PRODUCT # 5940 BRACHYTHERAPY KIT

Contains:

- (1) 5/pk Single Leader 15ga (6Fr) 30cm Catheter & Radiopaque Button
- (1) Single Leader 15ga (6Fr) 30cm Catheter & Radiopaque Button
- (2) 5/pk Radiopaque Buttons, Green color.
- (1) 5/pk Radiopaque Buttons, Blue color. Sterile

PRODUCT # 6039 Single Leader 15ga (6Fr) 30cm Catheter w/ Filiment, Female Luer & Radiopaque Button. Sterile

PRODUCT # 5641 5/pk Single Leader 15ga (6Fr) 30cm Catheter w/ Radiopaque Buttons. Sterile

PRODUCT # 5645 Single Leader 15ga (6Fr) 30cm Catheter w/ Radiopaque Button. Sterile

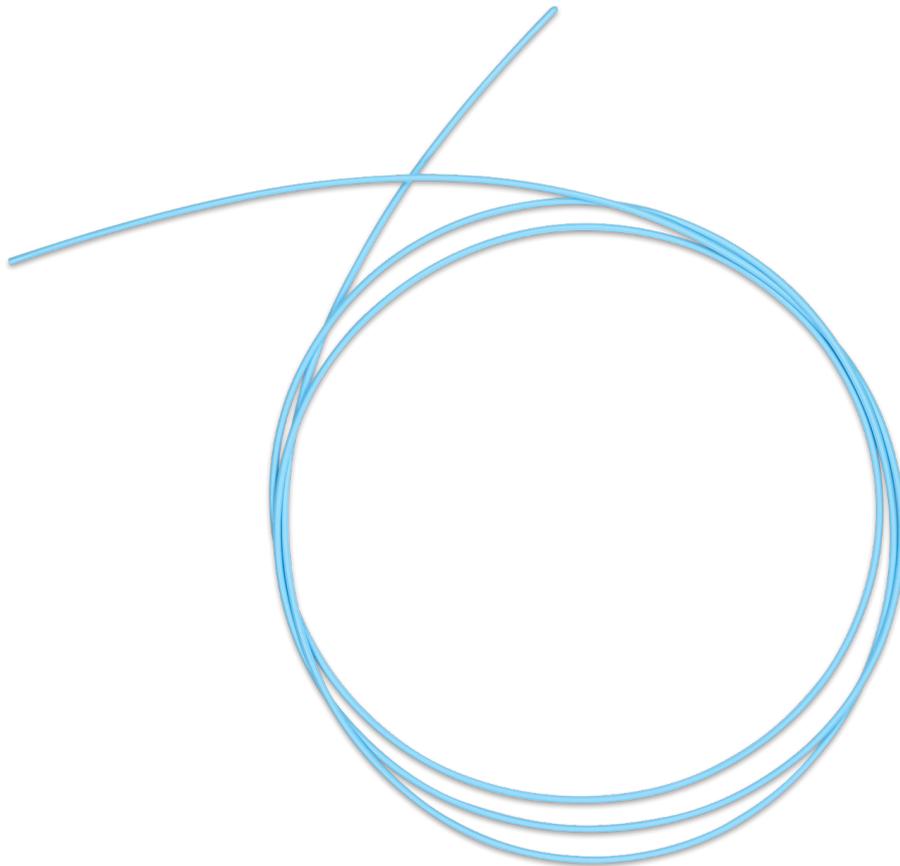

PRODUCT # 5644 Single Stainless Steel Implant Needle 17ga 20cm. Sterile

PRODUCT # 5621 5/pk Stainless Steel Implant Needles 17ga 20cm. Sterile

ENDOBONCHIAL CATHETER

The Endobronchial Catheter, 5.5 French, 150 cm is a sterile, single-use medical device designed for precise and controlled placement of brachytherapy sources within the bronchial tree. This catheter enables accurate positioning of radioactive sources for localized radiation delivery to endobronchial tumors.

With its 5.5 French diameter and 150 cm length, the catheter offers optimal flexibility and length for deep bronchial access while maintaining pushability and structural integrity. Its smooth, atraumatic tip is designed to minimize mucosal irritation and support safe navigation through delicate airway structures under bronchoscopic or fluoroscopic guidance.

PRODUCT #5649 Endobronchial Catheter (5.5 Fr) 150 cm, Sterile

MARKER & SEED IMPLANT NEEDLES

Implant Needle with Stylet is designed for accurate placement in brachytherapy and other image-guided procedures. The needle's 17-gauge stainless steel cannula ensures smooth insertion, while the fitted stylet provides stability and control during placement. It delivers consistent accuracy and control to support optimal procedural results.

PRODUCT # 5635 Single 17ga 20cm Implant Needle w/ Stylet, 1/pk, Sterile

Pre-Waxed Implant Needle with Gold Fiducial Marker and Stylet is designed for precise marker placement in image-guided radiation therapy. The pre-waxed lumen secures a gold fiducial marker for controlled delivery, while the included stylet ensures stability and accurate positioning. It provides reliable performance and precision for consistent, effective treatment.

PRODUCT # 5639 (4) 17ga 20cm Implant Needle Pre-waxed w/ (1) 1.2mm x 3mm Gold Fiducial Marker and Stylet. Sterile

VETERINARY BRACHYTHERAPY ACCESSORIES

17-gauge Flexineedle designed for veterinary brachytherapy applications. Its 30cm length provides optimal reach and placement control, allowing precise positioning during source implantation procedures.

PRODUCT # 3101 Flexineedle, 17ga, 30cm, Veterinary, Non-Sterile

Single leader catheter with positioning button for stable placement and secure fixation. Designed for veterinary brachytherapy procedures requiring reliable source channel alignment.

PRODUCT # 3102 Single Leader Catheter, 15ga, w/Button, Veterinary, Non-Sterile
PRODUCT # 3103 Single Leader Catheter, 17ga, w/Button, Veterinary, Non-Sterile

PRODUCT # 5910 5/pk Radiopaque Buttons, 15ga. Multicolor Sterile

PRODUCT # 5644 Single Stainless Steel Implant Needle 17ga 20cm. Sterile
PRODUCT # 5621 5/pk Stainless Steel Implant Needles 17ga 20cm. Sterile
